

### How to Administer Medicated Ear Drops/Ointment in Dogs & Cats

- ❖ Always read the label instructions carefully before use. Ensure the correct dosage is administered at all times. Shake bottle if necessary.
- ❖ Pull the ear flap over the patient's head and hold back.
- ❖ You may need to wrap the cat in a towel to restrain them for this.
- ❖ Squeeze out the desired amount and apply it to the lowest part of the ear canal.
- ❖ Gently massage the ointment/drops into the ear canal to help work the medication deeper into the ear canal. Massage for at least 30 seconds.
- ❖ Let your pet go!
