

How to Apply Eye Ointment to Your Dog's Eye

- ❖ You may need to muzzle your dog.
- ❖ Remove any discharge from around the eye with a cotton ball moistened with warm water.
- ❖ See the instructions on the bottle for dosage. Ensure all instructions are read correctly.
- ❖ Gently pull back the lower and upper lids.
- ❖ Holding the tube at a 45 degree angle to the lower eyelid, squeeze the ointment on to the eye edge. DON'T let the tube touch the eye's surface.
- ❖ Lightly massage the lower and upper eyelids together to spread the medication.
- ❖ Release your dog's head and allow them to blink freely.
